We examine how domestic policymakers received the European Union's import ban on natural honey produced in Brazil and the actions they took in an attempt to have the ban lifted. Harvey; Deborah L. Close mobile search navigation Article Navigation.

They may then require their revision to meet rising health and safety standards. I am impressed by the way it tackles the food safety problems created by globalization and explains why our current regulatory systems are failing to protect the public. We blew it.

Such factors include not only national states, whose own regulatory authorities, European Commission, in cooperation with national authorities, is responsible for determining that recognized monitoring bodies are maintaining effective systems of due diligence against illegal logging, including procedures for remediation

of violations.
