Discussion of this question has moved beyond disputes about how many countries should be classified as democratic to embrace a host of wider concerns about the health of democracy: the poor economic and political performance of advanced democracies, the new self-confidence and assertiveness of a number of leading authoritarian countries, and a geopolitical weakening of democracies relative to these resurgent authoritarians. Citizen electoral observers must be protected from any pressure or intimidation that can jeopardise their security and work.

Thus far, national observers have not focused sufficiently on electoral dis However, the interchangeable use of terms by international and national observers has obscured their meaning and the legal underpinnings of electoral assessments.
